CHAIRMAN MCCLINTOCK ANNOUNCES CAMPAIGN COMMITTEE

That the Democratic candidates in the county election have behind them some of the most ardent workers in the county is shown by the list given out by Chairman William G. McClintock. Mr. McClintock has summoned to the aid of the Democratic candidates perhaps the most ardent party men, who will from now until the polls close on election day be active in their efforts in behalf of the Democratic nominees. They are as follows:

Paris—A. S. Thompson, J. T. Hinton, E. T. Hinton, Pearce Paton, G. W. Judy, Reuben Hutchcraft.

Millersburg—Wm. D. McIntyre, Peale Collier.

Little Rock—P. L. McClure, R. P. Hopkins, R. H. Burris.

North Middletown—H. S. Caywood, Robt. Gilkey.

Clintonville—Ray Cunningham, B. S. Parrish.

Ruddles Mills—Thomas W. Current, George Current, Charles Wilson.

Invitation is extended to the Democracy evening, Oct. 30. A cordial invitation is extended to the Democracy evening, Oct. 30. A cordial invitation is extended to the Democracy evening, Oct. 30.

Hutchison—John Wiggins, Robt. Meteer.

Centerville—John Shropshire, Joseph Leach, D. C. Lisle, H. C. Clifford, John Blake.

Ruddles Mills—Thos. W. Current, George Opprent, Charles Wilson.

Chairman McClintock has announced that there will be a public speaking at the Centerville school house Saturday night, Nov. 1, in the interest of the Democratic party.

The speakers will be Hon. J. Campbell Cantrill, of Georgetown, Judge Denis Dundon and Mr. Charles A. McMillan, the latter the Democratic candidate for County Judge of Bourbon.

A cordial invitation is extended to the Democrats of the county to attend this meeting, which promises to be the most interesting of the campaign.

Squire John N. Shropshire, who is a candidate for re-election as Magistrate from the Centerville precinct, has opposition. During his term of office he has made an excellent official, and as a member of the Fiscal Court, has taken a great interest in the county's affairs.

PAIR OF SHOES LEADS TO ARREST OF SUSPECT.

A pair of shoes which were identified as being those stolen from the general store of Mr. C. N. Martin at Stony Point, several nights ago, led to the arrest of George Wilson, colored, who was lodged in jail Tuesday by Patrolman Fred Link, on the charge of being implicated in the robbery.

The arrest of Wilson was made following the information obtained by officer to the effect that a strange negro had made several attempts to dispose of articles of goods in the negro suburb of Claysville, which tallied with those taken from the store of Mr. Martin. A description of the negro was secured, and when taken into custody he was wearing a pair of heavy shoes of the brand sold by Mr. Martin, who came to Paris Tuesday morning and identified them as being the same that had been taken from his store.

The negro protested his innocence and said he had purchased the shoes from a merchant in Paris. The merchant when seen, denied handling that brand of shoes.

FUGITIVE FROM JUSTICE CAPTURED IN THIS CITY.

Frank Williams, colored, a fugitive from justice, was arrested in this city by Patrolman Fred Link. Williams was wanted in Carlisle, and was taken to that city Wednesday morning by deputy jailer Broderick. Williams escaped from the Carlisle jail about a week ago after tunneling through a brick wall and dropping fifteen or twenty feet to the ground. A liberal reward was offered for the capture of the negro, who was being held on a serious charge. Upon a description furnished by the Nicholas authorities to Patrolman Link the capture of the negro was effected at the Louisville & Nashville passenger station in this city, where the fugitive was in the act of boarding a train en route to Cincinnati. He admitted to the arresting officer that he was the man wanted when the officials at Carlisle were notified of his capture.

D. D. D. Opens New Era in Cure of Skin Disease

Professor Budlong's case of eczema was known to almost every hospital and physician of reputation throughout the state of Connecticut. His letter is another interesting demonstration of what is being accomplished by the famous specific D. D. D. Prescription. "It may be of interest to you to know that your life-saving preparation, D. D. D. Prescription has been of incalculable value to me. I was covered with eczema from head to foot when I began using your remedies. I could get no relief, although I tried a thousand means. I applied but two bottles of the Prescription; a cure was effected in a very short time, in less

WOODEN SHOES

Made in United States And Are Worn By Many.

In this country beech is the favorite material for wooden shoes, the manufacture of which has reached considerable proportions in the United States, according to the department of agriculture, which has just issued a bulletin on the use of the wood. These shoes, the department says, costs from 60 to 75 cents a pair and are good for two years. They are worn by those who have to work in cold or wet places, such as tanneries, breweries and livery stables, and by workmen in steel mills and glass factories who must walk on hot grates or floors. Farmers, too, are classed among the users.

Beech wood is put to a very much wider range of uses than the average person would be likely to suspect. The department says beech enters into hundreds of articles from hobby-horse rockers to butchers' blocks. We walk on beech floors, eat off beech picnic plates, carry beech baskets, play with beech toys, sit on beech chairs, and in dozens of other ways use articles made of beech almost every day of our lives. Its freedom from taste fits the wood especially for articles which come in contact with foodstuffs, and beech meat boards, skewers, lard tubs, butter boxes, sugar hogsheds, refrigerators, dishes, spoons and scoops are widely used.

Only one species of beech grows naturally in the United States, but few trees in this country have a wider commercial range. It extends from the Gulf of Mexico into Eastern Canada, and in practically every place where it is cut for market. The total yearly output of beech wood in the United States is approximately 500 million board feet.

MODESTY AND COMFORT.

Will Be Recognized in the Latest Fashions for Men and Women.

Here is a message of cheer for the men and women who follow, but nevertheless are "fagin" the naughty slinging modes of present fashions.
Models at two style shows displayed skirts that will not show knees when stairs are mounted, and sack suits that do not have to be put on with a shoe horn.

The designers gave out the glad-some news that comfortable clothes, likewise modest ones, are surely coming back in fashion's favor.
Freaks were also shown—there were many of them—and a tango dancing suit and gorgeous motor coat in the men's section vied for comment with M. Poiret's "lampshade" or the butterfly gowns, in the woman's exhibit.

Concerning men's styles Frank T. Brown, Vice President of the tailors' organization, of Chicago, said: "We are going to ease up a bit on these tight narrow modes. The extreme, for the present, will be the tight coat and tight trousers, but the days of that style are numbered."

"Fancy waist coats, out for five years, are coming back, and they will be cut lower to make room for the new large ties. Stripes are dying and highly colored rough goods, in green mixtures, checks and plaids, are arriving. Evening clothes must now be in colors, chiefly grays and dark greens."

"All is Well that Ends Well"

Along with dyspepsia comes nervousness, sleeplessness and general ill health. Why? Because a disordered stomach does not permit the food to be assimilated and carried to the blood. On the other hand, the blood is charged with poisons which come from this disordered digestion. In turn, the nerves are not fed on good, red blood and we see those symptoms of nervous breakdown. It is not head work that does it, but poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip—bronchitis—consumption. Fortify the body now with

STOCKHOLDERS SEEK RIGHTS

DESIRE TO HAVE BURLEY TOBACCO COMPANY CONDUCTED AS OTHER CORPORATIONS.

STATEMENT IS ISSUED

Present Management Charged With Extravagance and Mismanagement and Ask That the Company's Business Be Run Along Economical Lines and in Accordance With Sane Business Methods.

With the sole object of aiding in securing to the stockholders of the Burley Tobacco Co. the same rights, privileges and benefits that belong to and are enjoyed by the stockholders of all other corporations existing under our laws; and, with the desire, hope and view that something might be done by the stockholders of said corporation that would restore confidence among its members and bring about a more satisfactory condition of affairs among the growers of Burley tobacco, and with a view of doing only that which will best protect said growers from the greed, oppression and wrongs of the tobacco trust and secure to the growers convenient markets and fair prices for their tobacco, a number of representatives from various Burley tobacco growing counties have had several meetings at Lexington, Ky., within the past few weeks.

While all present seemed willing to do what they consistently could for the best interests of the organization, and its members, and were willing to make any reasonable sacrifices of time and means for the general good; yet, the holdings of each stockholder being small, and none of those present desiring any employment or position of profit in the corporation, it was concluded that all that could be reasonably expected from any particular stockholder was a statement to all the stockholders, covering the situation as it appears to the average stockholder, and letting the meeting to be held under the supervision of the court, at Lexington, Ky., November 6, 1913, quietly assemble and dispassionately act as the best judgment of those present shall determine.

Whatever is to the best interest of a majority of the stockholders is best for each, and those who have been interested in trying to bring about a better feeling in the organization and who favor the conducting of its business more fairly, economically and with greater justice and satisfaction to its stockholders, have no other, and could have no greater object, they think, than restoring the tobacco growers' organization to its original purpose and regaining for it the full confidence of its members. They entertain no personal hostility towards any person connected with the management of the corporation, and want the whole matter treated as a business proposition and without prejudice or favor to individuals. But they are unable to escape the conclusion that the present disturbed and unsatisfactory condition of its affairs are due entirely to the misdeeds and mistakes of the men who usurped the unwarranted powers and committed the unwise and unlawful acts of which the present management has been guilty. No success has come to the tobacco growers' organization since the usurpers at present in charge of its affairs diverted it from its original purpose, and nothing but failure and disaster ever follows such conduct.

Flushed by the victory which had been won by the combined efforts of the poolers of 1906 and 1907 and by the cutting out of the 1908 crop (against the cutting out of which crop Mr. Clarence Lebus vigorously opposed and voted), Mr. Clarence Lebus and his close associates conceived the idea of the centralization of all power in the hands of himself and a few self selected associates, by vesting in themselves the power to vote all the stock of the Burley Tobacco Co. This usurpation and centralization of power was a wrong similar in nature to that heretofore perpetrated by the American Tobacco Co. against the growers of Burley tobacco and against which all fair-minded people so bitterly complained and actively opposed and of which the United States government finally took notice and aided in stopping.

The court of last resort of the State of Kentucky has just stamped its disapproval upon said unlawful acts of Mr. Clarence Lebus and his associates. The following is an extract from the opinion of said court, to-wit:

"The action of the Board of Directors (Mr. Lebus and his associates) of the Burley Tobacco Society thereafter in trying to take from them (the stockholders of the Burley Tobacco Company) that right (to vote) was without semblance of authority and its fact the most indefensible usurpation."

When they have been guilty of what the highest court in our state brands as "indefensible usurpation," it is to be wondered at that they have lost the confidence of the stockholders and public in general, and that the present unfortunate condition of affairs is laid at their door? Where else could the responsibility be justly placed?

The court further decided as follows:

"Appellants (Mr. Lebus and his associates) were not and never had been legal directors of the Burley Tobacco Co."

There are many more; but chief

among their numerous misdeeds and mistakes were the following:

One—By diverting the farmers' organization from its original purpose they lost the confidence of the people and were unable to form a pool in 1910 or since.

Two—They have collected for stock in the Burley Tobacco Co. the sum of \$1,050,504.83, and the income of the company, from other sources has been over two million dollars that has come into their hands, all of which they have expended, and the company is now over half a million dollars in debt.

Three—They have failed and refused to make any statement of the business affairs of the corporation to the stockholders and have denied the stockholders and their representatives access to the books.

Four—They have paid to themselves, unauthorized, exorbitant and excessive salaries, without rendering services of value therefor.

Five—While denying the right of other farmers and tenants to vote or have a voice in their own affairs and retaining their money they granted special privileges to the rich, as is shown by the following correct copy of what was appended to a pooling contract signed by Mr. J. B. Haggis, of Fayette county, to-wit:

"This instrument is executed by the undersigned upon the express conditions that he is to have the right to name one member of the Board of Directors of said Burley Tobacco Society, who is also to be a member of the executive committee of said Board, and that such action will be taken from year to year by said society, as may be necessary to constitute the person designated by the undersigned or his representative a member of said board, and of said committee, and it is further agreed that if at any time such condition be not complied with, the undersigned or his representatives may at his or their election cancel and rescind this pledge as of the date of such action."

"It is also understood that the undersigned is under no obligation to raise any tobacco upon his land in any of said years unless he may choose to do so, and has the right to deliver to the pool whatever amount may be grown by him in any year, be the same more or less."

"By C. H. BERRYMAN, Attorney in Fact."

Do you know of any such privilege having been granted to any farmer or tenant in your neighborhood?

Six—They failed to make up a list of stockholders as required by law and denied and fought through the courts, with the stockholders' own money, the right of the stockholders to vote for Directors, or otherwise participate in the affairs of the company.

Seven—They bought from themselves and others numerous pieces of property without any authority so to do, and several of same at prices above their real value.

Eight—They have held possession of nearly \$300,000.00 of the poolers' money since February 1, 1910, and during all of said time have never collected any interest thereon, which at three per cent, the amount paid by most banks, would have amounted to over \$30,000.00 by this time.

Nine—They have authorized a committee of their own number to speculate in tobacco with the funds of the company.

Ten—They have expended large sums of the poolers' money with certain newspapers of the burley district for the purpose of popularizing themselves and deceiving the poolers.

Eleven—They were never elected by the stockholders and have usurped all the powers they have exercised on behalf of the company.

It was the unanimous opinion of those present at the above mentioned meetings of stockholders, at Lexington, that neither profit or success can come to this organization, or its members, unless its business is conducted differently in the future from what it has been in the past, and the experience and history of all men and concerns seems to approve this view. It is believed that the business can be properly conducted along fair and lawful lines, and that when so conducted it will prove both profitable and protective to the growers of Burley tobacco. No one wants to see a return of the days when the growers were at the mercy of the American Tobacco Co., and it was the opinion of those present at the above mentioned meetings that a return of such conditions could be forever prevented if the growers' organization was returned to its original purpose and conducted justly and according to law.

It was the opinion of those present at said meetings that its business should be conducted, in the future, along the following lines, to-wit:

One—The affairs of the Burley Tobacco Co. should be conducted according to law, and under the same business rules and regulations as govern and control the conduct of other corporations.

Two—There should be made, at once, by a competent and disinterested auditing and clerical force, a thorough investigation of the books, records and finances of the company, and a printed statement showing, in detail, the result of the investigation, without prejudice or favor to any person, mailed to each stockholder.

Three—There should also be made, as soon as is possible, by competent and disinterested persons, a physical valuation of all the property of the company, with a view of ascertaining as nearly as possible, the real true value of the stock of the Burley Tobacco Co., which information should be furnished to all the stockholders and not taken advantage of by officers or employees for the purpose of speculating in the stock.

Four—All surplus and needless employees who are now drawing a salary out of the funds of the company, should be discharged, expenses reduced wherever possible, and such economy practiced in the operation of the affairs of the company as is consistent with the safe and profitable conduct of the business.

Five—All employees of the company

should be engaged with the sole purpose of procuring efficiency, and required to render full and adequate services for the compensation received, and not employed with the view of favoring relations or personal friends.

Six—The funds of the company should not be used by any one for speculative purposes.

Seven—Convenient markets being a necessity to the growers of tobacco, the operation of the loose leaf warehouse business should be continued and extended wherever business principles will justify, but should not be promised at particular points for the purpose of securing votes. All of the loose leaf houses should be operated strictly on a commission basis, and none of the officers or employees of the company be permitted to speculate in tobacco sold over its floors.

Eight—The stockholders of the Burley Tobacco Co. should have at least been consulted before Mr. Lebus and his immediate associates invested \$600,000.00 of its funds in the Louisville tobacco factory. The stockholders of the company should be furnished with a full detailed statement of its affairs, and the management, after all the real facts concerning it are fully made known to the stockholders, should be guided entirely by the stockholders' wishes with reference thereto.

Nine—The executive officers of the corporation should be paid the following salaries, to-wit:

President and Vice President, combined, \$6,000 per year. The Vice President to receive no salary except while acting as president and while so acting he to receive the same rate allowed the president and all salary thus drawn by the vice president to be deducted from the salary of the president.

The executive committee, which should consist of five members, should receive \$1,200 each year, and five cents per mile going and returning to each meeting of the committee. The vice president should be a member of the executive committee, but during such time as he shall receive the salary of the president he should not receive the salary of an executive committee member.

The directors should receive \$300 each per year and five cents per mile going and returning from directors' meetings.

Ten—The office of the company should be kept open every business day and it should be the pleasure of all employees to furnish any stockholder all the information, and during all business hours to cheerfully submit to them, or their representative, the books of the company for their inspection.

Eleven—The main objects of the officers should be to so conduct the business of the company as to in every way possible aid the growers of Burley tobacco in securing the best prices obtainable therefor; and their first duty should be to the growers, and not to speculators and themselves.

In view of the fact that the usurpers now in charge of the affairs of the company have shown no desire to conduct the business in accordance with the above ideas it would seem useless to say that they would do so in the future, if elected November 6, 1913. That they wish to be elected and intend to be elected is made very plain by their activity in securing proxies and their "booming" of themselves in newspaper articles, written at Lexington, and sent out to the newspapers each week for publication, and their readiness to pay for every word of all the stockholders. But the strongest evidence of their intention to be elected is shown in the eagerness with which they have been buying the stock for the past few days. They have been paying from forty to fifty cents for it in this connection, and are respectfully asked to sign a short extract from the sworn answer filed by Mr. Lebus in the Kenton circuit court, to-wit:

"Defendants say further that the Burley Tobacco Company in handling the tobacco pooled with the Burley Tobacco Society and in the conduct and operation of its business, has earned such profits that it has enhanced already the book value, and the real value of each share of stock held by the poolers in the Burley Tobacco Company not less than fifty per cent above the amount actually invested therein by the stockholders."

As you see, Mr. Lebus swore the stock was worth a dollar and a half. Why are they taking it from the stockholders for less than it is worth? Ought they not to pay what Mr. Lebus has sworn it is really worth, instead of forty or fifty cents?

The attention of the stockholders is called to the fact that the approaching election will be held under the supervision of the commissioners of the Kenton circuit court, and that the votes of the stockholders will be counted as cast at this election; and, judging from the conduct of the usurpers in opposing and denying your right to vote in the past, you may be able to conclude what the future may hold in store for the stockholders who hereafter seek the right to vote, in the event the usurpers are successful in this election. Don't it occur to you that this is probably the best chance that the stockholders will ever have to get possession and control of their own affairs?

This question must present itself to each thoughtful, reflecting stockholder: who has the real interest of the Burley tobacco growers at heart, to-wit:

Should I cast my vote for those who have disfranchised me, and who used my money to keep me disfranchised, and who have withheld from me information concerning the business of the company and now seek to buy the stock at one-third of what Mr. Lebus has sworn it was worth, and who do not even now promise any definite policy for the future?

If you wish to endorse usurpation and wrong, you will be given a full, fair chance to do so in the election to be held at Lexington, Ky., November 6, 1913, or if you wish to vote against such conduct, you will have a like opportunity to do so. The stockholders' right to vote, in the approaching election was secured to them by the efforts of a few men, but those men do not feel that their obligations to their neighbors go to the extent of acquiring for them an expensive, organized effort to wrest the control of the company from the usurpers. The doing of this is as much the duty of one stockholder as another, and it can not and will not be done unless the stockholders accomplish it by their individual efforts.

Stock is being bought by any one except the usurpers and no campaign is being, or will be, conducted by any one, except them. The whole matter may be summed up by saying that the individual stockholder, who must do for himself what he wants done. It would be best for as many stockholders as possibly can to go to Lexington, in person, on November 6th, and cast their own votes. As many may not be able, or care to incur this expense, those who wish to do so can get blank proxies from any of the following named gentlemen to-wit:

LET EVERY DEMOCRAT VOTE

Every Democrat who had a voice in the primary election will be entitled to a vote in the regular election to be held Nov. 4, and every member of the party who participated in the election is in honor bound to support the nominees. Every arrangement should be made to go to the polls early on election day, and cast your vote for the choice of the majority of the party whose election was won fairly and squarely.

All that is necessary for the success of the party is for every Democrat to put his shoulder to the wheel on the day of the election and by his vote assure the success of the Democratic candidates. The defeat of any of the candidates will be construed as a rebuke to our brilliant President, Woodrow Wilson, and the Democratic members of both branches of Congress.

The Republicans, who would be unable to win without assistance from the Democrats, are using their usual tactics to dissuade the Democrats from supporting the Democratic nominees, but it is a well-grounded opinion that they will be lacking many votes when the final count is made. There is nothing so admirable in a Democrat as to have him lay aside any personal feeling and cast his vote for the interest of the choice of the people and his party. In this day of political strife we are to combat with the common enemy and loyalty to the cause of Democracy is a most commendable trait in the party following.

A glance at the list of assistants to Chairman W. G. McClintock clearly demonstrates that men have been selected to run the campaign who will be found in the thickest of the fray. Lend assistance by casting your vote for the straight Democratic ticket.

CONGRESS BEE BUZZING IN HAMLETT'S HAT.

Superintendent of Public Instruction Barksdale Hamlett returned to Frankfort, Tuesday, from a trip in the Second District, and while he declined to commit himself on the subject of entering the race for the Democratic nomination for Congress in that district, he said:

"I was importuned by a great many people to enter the race after the announcement of Congressman Stanley from Washington that he will not be a candidate again."

It is said that the race for the nomination to succeed Stanley is practically made up with the exception of a candidate from Christian, and Superintendent Hamlett is expected to announce definitely his intentions soon after the November election.

Judge Henson, of Henderson, and David Kincheloe, of Madisonville, are the only avowed candidates so far.

JAMES INDORSES HUGHES FOR COLLECTOR IN EIGHTH

Senator Ollie M. James recommended John W. Hughes, of Harrodsburg, to be Collector of Internal Revenue in the Eighth Kentucky district. An appointment to fill this office is expected some time this week. Assistant Secretary of War Breckinridge and members of the Kentucky Wilson League are demanding that the President ask Senator James to change his indorsement of Hughes and name an original Wilson man for the place.

If President Wilson takes such a step and the Senator consents it is likely the Senator would then recommend Kendrick Alcorn, of Stanford. But it is not thought that the President will take such a step.

Senator James, while admitting he had made an indorsement, would not give the name of his choice, but the above facts were learned from the Treasury Department sources.

In selecting Judge Hughes from the two score candidates for the place, Mr. James, according to well-informed politicians, has found a satisfactory solution of the Collectorship tangle. Throughout the contest localities have figured largely.

The Eleventh Congressional district candidate was decided against because it seemed more important to the Democratic party, from the Senator's viewpoint.

10 CENT "CASCARETS" STRAIGHTEN YOU UP.

When Headachy, Bilious, Constipated Stomach Sour, Breath Bad.

Get a ten-cent box now. Turn the rascals out—the headache, dizziness, indigestion, the sick, sour stomach and foul gases—turn them out, tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and ever know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel straight.

A Cascaret tonight straightens you out by morning. They work while you sleep. A ten-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

WOULD LEGISLATE FISCAL COURT OUT OF OFFICE.

In the report made by the Scott county grand jury Tuesday afternoon it recommended the abolition of the Fiscal Court and advised a change of the entire fiscal system. This, the report says, is the opinion of the members of the Fiscal Court itself.

The grand jury suggests a bond issue for the purpose of rebuilding Scott county roads and urges the necessity of immediate action in regard to the handling of the county affairs.

STOCK AND FARM NOTES

—Thomas N. Coons, of Montgomery county, sold to Roy Byrd his farm of ninety-nine acres and improvements in that county, for \$170 a acre.

—Hazel Dawn, owned by Matlack & Shropshire, of Winchester, won all the premiums at the Kansas City Horse Show this week.

—A dispatch from Maysville says:

"George Cahall, of Brown county, O., was here Saturday and disposed of his crop of 20,000 pounds of tobacco at 23 cents a pound."

—Mr. Chas. A. Tabor, of this county, sold and delivered to Sudduth Bros., of Clark county, 50 feeding cattle, weight 987 pounds, at 6 1/2 cents. Mr. Tabor also sold to W. A. Thomson & Co., of North Middletown, 70 fat hogs at 7 1/4 cents.

—W. R. Span & Son, of Shelby county, recently received at their farm seventy cows bought by Mr. Spann on the Isle of Jersey the past summer. The importation was increased by three calves dropped in shipboard, fourteen in quarantine in New York, and three on the train. They all arrived in good condition.

The Mt. Sterling Advocate reports court day in that city as follows: "There was from 5,000 to 7,000 cattle on the market, all the pens being full and a great many cattle left in pastures, to be brought in as the pens were cleared."

"The day was the worst ever; snowing, raining and cold. It was so bad that we left the pens after a short stay, the first time we have shirked in twenty years."

"Trade was brisk and prices strong, the best 1,000-lb steers going \$7, with lighter steers at \$6.25 to \$6.75. Heifers at 5 to 5 1/2c, with some fat ones at 6c, cows at \$4 to \$5, bulls at 5 1/2c, old cows and rough oxen at \$2.75 to \$4."

LIVES OF EX-PARISIANS MENACED BY EXPLOSIONS.

A letter received by relatives of Mr. and Mrs. W. G. Swearingen, of Carthage, O., formerly of this city, tells of the narrow escape of the members of the family from an explosion of dynamite which wrecked a portion of a new steel bridge which was being built in that city. A large force of men were employed in the construction of the steel work, and from some unknown cause two of the number were discharged, and, according to the letter, the discharged workmen went to the bridge a few nights later and placed large quantities of dynamite in several places along the bridge. The explosion which followed wrecked the bridge, and the force was felt all over the town. Mr. Swearingen's house was about a square from the scene of the explosion, and was badly damaged by falling debris. Luckily the inmates escaped without injury.

The price of furs averages three and one-half times as much now in the big Canadian markets as it did in the decade from 1890 to 1900.

FRANK P. CLAY SELLS CASTLE COMFORT FARM.

Mrs. Neomi Wiedemann Blount, of New York, has purchased of Mr. Frank P. Clay, his beautiful country home, "Castle Comfort Farm," located on the Paris and Georgetown pike, at a private price. The farm contains 151 acres of highly productive soil and is well improved. The house on the place was built by the late Thomas Stamps in 1842, and has been in the Clay family since 1852. Possession will be given Mar. 1, 1914. Mrs. Blount bought the property for her son, Mr. Stanhope Wiedemann, who has been making his home with Mr. and Mrs. W. B. Woodford, on the Winchester pike, for the past two years. Becoming interested in agriculture after he left college, Mr. Wiedemann came to Bourbon county to obtain practical farming experience. Since his residence here he decided to remain in this county permanently.

Thirteen years ago, Miss Cora Bow-

loaned \$1 to W. M. Morrow, who had
concluded that the East held none
of the good things in life for him,
and had decided to go West to pros-

She considered the dollar in the
light of a friendly contribution to
Morrow's fortunes, and proceeded to
forget about it. In the passing years
nothing was heard from Morrow, and
he was forgotten even by his friends.
Meanwhile Morrow was doing a lot
of hard plugging. Recently he "land-

Miss Bowser received a certified

The laws passed by the Tennessee
state and interstate shipments of
liquor, went into effect Saturday.
Following the closing of the extra

shipments, both laws become im-

The third liquor bill passed by the
Legislature, which makes possible
the abatement of saloons as nuisan-

To Administer the \$3,000,000 Trust Fund Left By Mrs. Eddy.

The final act in the prolonged litigation over the will of the late Mrs. Mary Baker G. Eddy was the appointment by Judge Charles R. Corning in the Merrimack County Court of Probate at Concord, N. H., of trustees to administer the three million dollar fund which Mrs. Eddy left for the promotion and extension of the doctrines of Christian Science as taught by her.

The trustees appointed are Archibald MacLellan, Allison V. Stewart, John V. Dittmore, Adam H. Dickey and James A. Neal, who constitute the Board of Directors of the First Church of Christ, Scientists, in Boston, and Josiah E. Fernald, of Concord, a banker, who has been the practical custodian of Mrs. Eddy's estate since the establishment of this trust in 1907; the court thus choosing as trustees men in whom Mrs. Eddy during her lifetime reposed confidence.

WASHINGTON PORTRAIT

Believed to Be the Genuine Gilbert Stuart Painting.

On the wall of a dimly-lighted front room in a dilapidated frame house on Orange Avenue, Cleveland, O., hangs a time-worn painting of George Washington, which may prove to be worth many thousands of dollars.

To the layman it looks like a once fine portrait, with its days of ornamentation nearly ended, but by the initiated in art it is believed to be a genuine Gilbert Stuart—the only one still unaccounted for. The last Gilbert Stuart discovered brought \$16,000 a year ago in Philadelphia.

John F. McHale, a dealer in antiques, is the owner of the Cleveland painting. "I picked the painting up six years ago," said McHale. "In my mind there is no doubt about its genuineness. I am waiting for Director Kent, of the Metropolitan Museum in New York, who is coming here to pass judgment on it."

THEATRICAL.

"STARTING LIFE EASY," SAYS WRITER OF PLAYS.

Clara Lipman, who, with Samuel Shipman, has written the new comedy of modern life, called "Children of Today," in which Mr. Louis Mann will appear at the Ben Ali Theatre, in Lexington, Monday, Oct. 27, does not believe in treating vital subjects too lugubriously.

"Life is an extremely serious thing and I do not mean to say that it ought to be looked upon with trifling eyes by any means," she added, the other day. "But I do think any great, potent idea ought to be presented to the public in a sympathetic manner and with as light a touch as it is possible to give such things."

"You know," she went on, "it is very easy to write seriously. There is no special difficulty in making people weep in the theatre. Take, for instance, this subject of the younger generation. It is the most vital subject of the moment in America. The American children have no youth whatever. The times are such that they are born with complete knowledge. They come forth into a world of science, electricity, wireless, mechanical toys and dear Heaven knows what else besides. They do not know how to play, and as a result of all they have the most decided ideas about everything under the sun. Tell me, what is going to be the remedy for this?"

"I know how it was in my own case. My wonderful mother lived long before her time. She was well weighted down with all sorts of questions that are the topics of the moment nowadays, and she had no one to pour out her thoughts to but me. She did this unconsciously, perhaps, but she placed a great weight upon my shoulders and so for many years, when I suddenly realized what life was, I was extremely unhappy."

"Of course, that is a thing of the past, for I know life now, and have some poise and a point of view, but I could see so much unhappiness all about me in the younger generation that I could write the most serious kind of a play about it. But if I put on such a play it would probably last about two weeks, if it lasted that long."

Order seats now from George M. Kiser, Telephone No. 124. Inter-urban cars are held at the corner of Main and Limestone streets until after the performance.

MATRIMONIAL.

OFFUTT-FERGUSON.

—One of the most elaborate home weddings that has occurred in Scott county for some time was the wedding Wednesday which united one of its most popular young girls, Miss Sue Ford Offutt, to one of Bourbon county's most popular young men, Mr. William Kenney Ferguson.

"Maplehurst," the home of Mr. and Mrs. Reuben Ford Offutt, was the scene of the wedding and was handsomely decorated with added beauty of decorations of graceful palms and ferns, with vases here and there of white chrysanthemums. A harpist played lovely music and Mrs. William C. Ware sang sweetly "I Love You Truly," and "My Dear," during the assembling of the guests.

Promptly at the appointed time the wedding procession was announced by the strains of Lohengrin's Chorus. First came two of the groomsmen, Mr. Webb Offutt, of New York, brother of the bride, and Mr. Charlton Clay, entering from the library through the hall into the drawing room where the ceremony was said. Each of the bridesmaids came in alone, Miss Caroline Roseberry, and then Miss Cornelia Blackburn. Next came two groomsmen, Mr. Hugh Ferguson and Mr. Charles Ferguson, who were followed by Miss Martha Ferguson, of Paris.

The bridesmaids' gowns were lovely creations of delicate green charmeuse with overdress of shadow lawn, trimming of silver lace. As in "ye olden times" each maid carried bouquets of French rosebuds in holders.

Mrs. Wallace Howe, of Torrent, as dame of honor, came next, beautifully gowned in green crepe meteor combined with white chiffon embroidered in gold.

Following the dame of honor was the groom with his best man, Mr. Robert Ferguson. The bride, on the arm of her father, was beautiful in a robe of white satin, trimmed in rare rose point lace. The gown made with court train. The veil was formed in a becoming cap caught up with orange blossoms. Her only ornament was a diamond and pearl lavalliere, the gift of the groom.

The bride's mother was handsome in a black lace gown over black charmeuse, while Mrs. Ferguson was beautiful in a becoming gown of dainty pink charmeuse with overdress of lace.

Mr. and Mrs. William Kenney Ferguson left immediately in their car for a short wedding journey, after which they will be at home to their friends in a lovely home on Pleasant street.

The presents were exquisite and almost entirely in silver.

Among those from Paris who attended the wedding were Mr. and Mrs. J. W. Ferguson, Mrs. Susie Pigg, Mr. and Mrs. J. H. Thompson, Mr. and Mrs. J. M. Hall, Mr. and Mrs. William C. Ferguson, Mr. and Mrs. V. W. Ferguson, Mr. and Mrs. Robert Ferguson, Mr. and Mrs. Edward Pritchard, Mr. and Mrs. Clarence Kenney, Mr. and Mrs. Walter Kenney, Mrs. Matthew Kenney, Mr. and Mrs. Chas. A. Webber.

TAKES OFF DANDRUFF— HAIR STOPS FALLING

Girls! Try This! Makes Your Hair Thick, Glossy, Fluffy, Beautiful.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair, and your scalp will not itch but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but rally new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle or scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and as soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine. KENTUCKY THIRD STATE ON COAL PRODUCERS' LIST.

Kentucky was the third State to enter the list of "regular coal producers" according to a statement of the Government Geological Survey reviewing the history of coal production in this country, issued recently. An early report of the Kentucky Geological Survey, published in 1838, is quoted, and it is shown that the first coal produced in Kentucky was mined in 1827 on the "right side of the Cumberland river below the mouth of Laurel."
